ANDREW GODBY

Software Engineer

DETAILS

Las Vegas, United States
andrewmgodby@gmail.com
4197885185

PROFILE

Passionate software engineer with skills including MySQL, Laravel, React, Node.js, PHP, Javascript, Docker, WordPress, and various other technologies. My exceptional written and verbal communication skills enable me to work effectively with team members and stakeholders. I excel in leadership and project management, which make me a valuable asset to any organization.

EMPLOYMENT HISTORY

Full Stack Developer, Nevada Corporate Headquarters, Las Vegas

FEBRUARY 2022 — PRESENT

Design and develop new web and software features according to company needs. Fast pace environment with short deadlines. Laravel is our primary application framework, but we occasionally need to use another environment such as node.js and React. A lot of our work is utilizing our .NET CRM API endpoints to post lead data captured from web applications. Fixing bugs when they arrise, but mostly creating new features. New applications and services are often requested, in which case I develop them start to finish based on requirements from directors of various departments.

Lead Software Engineer, Buckeye Innovation

DECEMBER 2022 — PRESENT

Lead software engineer for a medium sized software development agency. My role is to manage projects and people. This is a client facing position. Aside from the project management side of the role, performing engineering tasks is important to keep everything on schedule. Being flexible and dependable throughout all of this and abiding by the scrum methodology, our project teams always deliver high quality and on-time results for clients!

Senior Engineer, CovClinic, Las Vegas

JANUARY 2021 — APRIL 2022

Mid sized COVID-19 rapid testing company with dynamic business model. I created workflow management software using HTML, CSS, JS, PHP and MySQL from scratch. After a few months, I hired a team of developers to assist in operations. Skill used on the job include AWS, MySQL, Git, UI/UX design, Linux & Apache knowledge, Python scripting, software planning, debugging, and more.

Web Developer, Freelance, U.S.A

SEPTEMBER 2015 — JANUARY 2021

Freelance web and software development for five years refining my skills and learning. Notable skills acquired were Node.js, express, MongoDB, as well as Laravel and tech in the LAMP stack. I learned Javascript, and PHP during this time period.

EDUCATION

General Education Curriculum , Colonel Crawford H.S., North Robinson, Ohio

MARCH 2005 — JUNE 2009

Graduated with a diploma.
